

Epoxy Water Proofer

Florok Epoxy Waterproofer is a specially formulated heavy bodied thermo setting Epoxy Resin. When mixed with the activator it becomes self curing and hardens to a clear ceramic like, non porous impermeable film. Color packs can be added to pigment it. Since it is a 100% solids it can be applied from a thin brush application to a 1/16 or 1/8 inch thick cladding that can withstand tons of hydrostatic water pressure. AVAILABLE IN 1 QUART, 1 GALLON, 4 GALLON UNITS

Basic Uses

- FLOKOR EPOXY WATERPROOFER IS DESIGNED TO BE A HEAVY DUTY WATERPROOF PROTECTIVE COATING THAT SEALS POROUS SURFACES, FINE CRACKS AND VOIDS. SAND CAN BE ADDED AND MADE INTO A MORTAR FOR WIDER CRACKS, OR FIBERGLASS MATTING LAYERS.
- FOUNDATIONS- INTERIOR AND EXTERIOR
- PRECAST CONCRETE TANKS, SUBMERGED CONCRETE UNITS, CONCRETE PIPES, CONCRETE AND METAL TROUGHS
- POTABLE WATER TANKS, WASTE WATER TANKS
- FISH PONDS AND WATERFALLS, REFLECTIVE POOLS, SWIMMING POOLS
- BALCONIES AND DECKS
- BRIDGE COLUMNS

Advantages

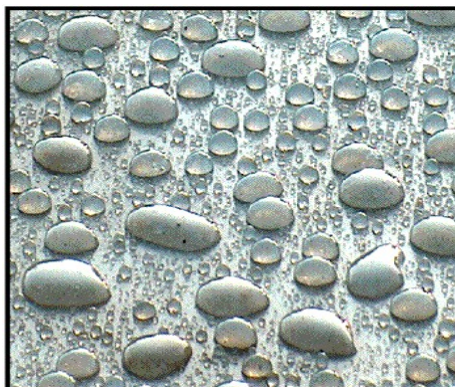

- WATERPROOF AND RESISTANT TO CORROSION
- FOUR TIMES STRONGER THAN CONCRETE
- NOT AFFECTED BY WEATHER OR TEMPERATURE
- APPLY BY BRUSH, ROLLER, SQUEEGEE

Test results- In accordance with following specs.

- ASTM C881, C882, C883, C884, C900, D75, D1259
- NSF CERTIFIED FOR USE IN POTABLE WATER APPLICATIONS

COVERAGE RATES

- SMOOTH CONCRETE SURFACES- 100 FT²/GAL
- ROUGH CONCRETE SURFACES- 80 FT²/GAL
- CONCRETE BLOCK- 80 FT²/GAL
- BRICK, CEMENT PLASTER, METAL- 100 FT²/GAL

Color pack system

- Epoxy Waterproofer utilizes a color pack system for added coloring to the clear. One color pack per gallon unit is added to the Part A resin at the time of application. With over 60 colors, the Epoxy Waterproofer color chart is available to view online at http://www.chargar.com/Products/prod_na.html
